<b>What is the expected Job Growth for this career?</b>	<b>What is the expected Job Growth for this career?</b>

**Part III – Course Planning:** Based on your research today, complete the steps below to help plan your next 2 years of high school.

1. Choose Academic Planning from the dashboard

2. Choose a Career Pathway based on your research today

3. You will now be able to see what courses you have already completed and select classes that you would like to take in the future.

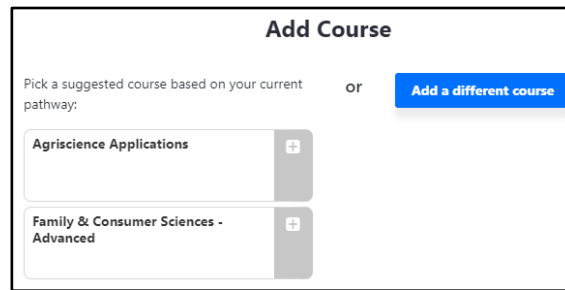

<b>Math</b>	<b>Math 7 Plus</b>   completed Math		<b>NC Math 1 (MS f...</b>   completed Math		Add 1 Course
<b>Science</b>	<b>Science Grade 7</b>   completed Science		<b>Science Grade 8</b>   completed Science		Add 1 Course
<b>English</b>	<b>English/Languag...</b>   completed		<b>English/Languag...</b>   completed		Add 1 Course

4. Click on the + sign to expand the section and add the course that you plan to register to take.

- You can pick a course based on your current chosen pathway

OR

- You can add a different course

The screenshot shows a web interface titled "Add Course". At the top, it says "Pick a suggested course based on your current pathway:" followed by "or" and a blue button labeled "Add a different course". Below this, there are two course suggestions, each in a light gray box with a plus sign in a dark gray circle on the right:

- Agriscience Applications
- Family & Consumer Sciences - Advanced

5. Continue step4 until you have courses in each section of your course plan. **Remember that you can change these at any time if your interests change. This DOES NOT register to enroll in these classes.**

**Part IV Discussion Questions:** Answer the following questions based on your research today

1. What is the difference between a community college and a 4-year school? A Bachelor's Degree and a Master's?
2. What level of education should you obtain to have a career in your top occupational choice?
3. How do you feel about pursuing that much education?
4. What classes are most relevant for your career goals?
